REMARKS

This is UNEVALUATED Information

25X1

1. It was observed on 29 January 1951, that the reconstruction of the Kuestrin/Altstadt (O 53/V 66) railroad station had been under way for some days. It is planned to transfer the customs and freight dispatch offices to the new station. *

* Comment.

The installations of this railroad station, which is located between the Kuestrin/Kietz and Kuestrin/Neustadt railroad stations, were almost completely destroyed at the end of the war. The railroad station was reconstructed in a makeshift way for transit traffic. The functions of a border crossing point for traffic from and to Poland were turned over to Kuestrin/Kietz, the railroad installations of which are inadequate for this mission and which for this reason are scheduled to be expanded.
